10. The estimated cost of proposed works is \$3000.00
11. The estimated time required to construct the works is two years.
12. Irrigation will begin about March 15 and end about September 15 of each year.
13. The water has heretofore been used during the months of March to September, both inclusive, when available.
14. Remarks: This application is designed to change the place of use of water used on the lands described under 6 above, which lands have been sold but the water rights appurtenant thereto reserved for the reclamation of lands of grantor adjacent thereto, per deed, certified copy of which has been filed in the State Engineer's office in connection Proof of Appropriation No. 00170. Since such sale applicant has had the land sold under lease part of the time and used the water thereon. He has deferred making this application to change place of use until the water rights were defined and he was assured that they were definitely fixed as set forth in the Order of Determination so that his application might conform therewith. Wilcox Dam as shown by accompanying map is a common diversion for Big or Nelson Slough, Wilcox ditch and overflow as shown in the Order of Determination.
